

Space Planner

Draw a line for each wall using the graph paper below. Include items you plan to keep (doors, windows, sinks, cabinets, etc.). Add simple box drawings to show where you would like new cabinets.

Add Measurements

Record the measurement of each wall section. Move around the room clockwise and measure from a corner to the outside edge of a door or window. Continue around the room until all sections are recorded.

Record ceiling Height.

List Appliance Measurements Here: (If appliances will be new – skip this step)

	Refrigerator		Height:	Width:	Depth:
	Oven		Height:	Width:	Depth:
	Stovetop		Height:	Width:	Depth:
	Hood		Height:	Width:	Depth:
	Dishwasher		Height:	Width:	Depth:
	Other		Height:	Width:	Depth:

List accessory items you would love to have –(garbage pull-out, pull-out drawers, pull-out pantry, vertical dividers, charging drawer, spice tray, etc.)

Also Consider...

Overall Style: *contemporary, mid-century, farmhouse, traditional, etc.*

Exterior material: *Wood (cherry, hickory, maple...), painted, melamine, etc.*

Interior material: *typically melamine (maple, white, etc.)*

Door style: *shaker, slab, glass, etc.*
